Proficiency Tests - PT
Food, Feed, Cosmetic Products and Contact MaterialsDLA Annual Programs 2025

Dear Mrs. Riina Leis, dear Sir or Madam, (Customer No.:22611)

Hereby you will receive our new PT program 2025 as a PDF form. Besides the allergen and mycotoxin programs accredited according to DIN EN ISO/IEC 17043, we offer numerous other proficiency tests e.g. from the areas of authenticity testing, GMO analysis and dietary foods / food supplements.The program is also available at our . Orders are now possible in our new .There you will also find further information and details about our proficiency tests.

Special Offer:5% discount for 10 booked PTs in 2025 (applies to PT annual registrations until January 31st, 2025)

DLA has been offering proficiency testing in selected areas for 20 years. In the following we would like to draw your attention to some selected PTs:

The special ALLERGEN PT concept with incurred and spiked allergen samples additionally evaluated by recovery rates and z-scores for maximum information on the performance of your allergen analysis!

*   We offer all allergens to be labeled for qualitative and quantitative determination every year in our 13 Allergen-PTs (each with positive and &quot;negative&quot; food samples and unprocessed spiking level samples with z-scores and comparison of recovery rates).

*   Our three qualitative Allergen-Screenings with 7-9 allergens include from 2025 on all parameters in 2 of the 4 samples providing 2/3 and 1/6 of the new Action Levels (VITAL 4.0, 2024), respectively.

*   In addition we are offering three Allergen-Swab-Test Screenings completed by our Allergen Rinsing Water PT.

Mykotoxin PTs (quantitative with qualitative evaluation with respect to the EU maximum levels)

*   In the mycotoxin focus, you will find our Multi Mycotoxin Screening (aflatoxins, ochratoxin A, deoxynivalenone, fumonisins and zearalenone in cereal muesli with fruits and nuts). As for all mycotoxin PTs with two different samples for qualitative evaluation and quantitative evaluation of the positive sample using z-scores.).

Other highlights and innovations

*   In the field of authenticity testing we offer three Animal Species Screenings for Meat and Milk products as well as a Seafood Screening for Fish Species, Crustaceans and Mollusks and the Vegan Compliance Check

*   Also in the program: GMO screenings as well as quantitative GMO PTs (in food and feed), dietary fiber and inulin, vitamins, elements (trace elements and heavy metals), detection of toxic contaminants / residues (including coumarin and ethylene oxide / chloroethanol) and free amino acids, as well as selected parameters in cosmetic and tattoo products.

*   By the way: You can book double sample material for each of our PTs at a reasonable price.

Please, take a look at the programs in detail, we are looking forward to your feedback!Kind regards,your DLA-Team
