The grid is a 6x12 array of numbers. The numbers are arranged in pairs (3, 2) and (4, 1) in a repeating pattern. Blue annotations highlight specific features:

- A vertical blue line on the left side, spanning the first two columns.
- A diagonal blue line running from the top-right corner towards the bottom-left corner.
- A T-shaped blue structure on the right side, spanning the last two columns.

Optional installation on the side

If modified standard U-float is seen as better option for boat, bigger 3-roller U-floats can be changed to these. Price of modified standard U-float is same as bigger 3-roller U-floats. In modification standard roller is replaced by HDPE-bar, which is welded on the float.
