Honorable Minister,

I would like to extend my sincere gratitude for your kind hospitality during my first official visit to Ukraine as a Minister. It was truly an eye-opening experience and we as a delegation could not be more grateful to your team and to all the Ukrainian healthcare workers we met in that short time. We admire the dignity, courage and professionalism they show in the face of this harsh and unforgiving war.

We gained significant insights on the demanding conditions that Ukrainians are experiencing, but also a renewed perspective on creating operative solutions when confronted with unforeseeable challenges.

I look forward to continuing close cooperation between our Ministries.

Yours sincerely,

Karmen Joller
Minister of Social Affairs of Estonia
