Letter of Congratulation

Honourable Minister, dear Colleague

I look forward to working together on addressing the common priorities and challenges that remain high on the agenda of Ministers of social and family policy, including demographic trends, sustainability of social protection systems and family wellbeing, to name only some of them.

I am confident that valuable exchanges and cooperation between our countries bilaterally, at the European level and in other international engagements will strengthen our partnership and contribute to developing effective and forward-looking responses for the wellbeing of our people.

Please accept the expression of my highest consideration.

Yours sincerely,

Karmen Joller
Minister of Social Affairs
