Ours: 14-13.1/53-2 29.04.2021

Dear Ms Gariazzo,

Thank you for your letter and indicative amounts for the initial allocations for the AMIF and ISF. We have no comments regarding those calculations.

Estonia confirms that all data submitted through official channels (Eurostat and EBCGA) is up to date.

According to Estonian Police and Border Guard Board Estonia has not carried out long range operations outside the outer limit of the territorial sea on a regular basis.

The data reported for the years 2017, 2018 and 2019 consists of border crossings:

- only via authorized Border Crossing Points,
- related to ferries, cargo, cruises and crew have been reported by categories.

We are looking forward to the information about initial BMV allocations.

Kind regards,

Aivi Kuivonen
